@ acharyasaagar@gmail.com
☎ 0449323786

MY EDUCATION & CERTIFICATIONS

Metropolia University of Applied Sciences
2016-2020

Bachelor's in Engineering, Information & Technology

Full Stack Software Developer Certificate

Helsinki University

[Certificate Link Here](#)

MY RECENT PROJECTS

Rostergrid Application

[demo](#)

A web application to manage work-shift communications between managers and employees. It was built for a restaurant in Helsinki as my thesis project.

nodejs typescript raml

postgresql jwt reactjs

rest api expressjs git

Blog Listing App

[demo](#) [code](#)

Made with Reactjs, Nodejs, Express, this project was a part of course full stack open course from Helsinki University. I am still working on the project on refactoring code and adding more features.

react mongodb jest

hooks express cypress

Website Crawler

[code](#)

The program helped me scan cancelled appointments from Finnish immigration website when Finnish immigration service was all booked out for customer visits and I was unable to secure a time to renew my visa so the only way I would get an appointment in time was if somebody cancelled. So I wrote a program to crawl the migri website and notify me via SMS of free times when one is available.

nodejs puppeteer.js cron
